Presenting a new way of thinking about higher education at the area’s first and largest college – a community-based college with a global perspective projected through innovation and technology.

Here, rooted in the rich tradition of faculty who love to teach, students build an academic resume for 21st century life. They prepare for university transfer. Earn a new baccalaureate degree. Or, go straight into a career equipped to contribute from day one.

It’s a proven equation for success: expanded options here equal greater choices for your future anywhere.

A Legacy of Excellence, A Future of Innovation.
