Promise Made, Promise Kept

The community asked for a local, complete B.S. in Nursing program and State College of Florida responded. On May 7, just 15 months after the program started, the first B.S.N. class graduated.

SCF continues to respond to the community with new baccalaureate programs starting this year in Early Childhood Education, Health Services Administration, Public Safety Administration, Homeland Security and Energy Technology Management. Learn more about these and other new baccalaureate programs being developed at scf.edu/bachelors.

Established 1957 • Region’s first and largest public college
