

Placement Rate by Program

Placement of 2013-2014 Graduates

SCF students receiving an Associate in Science degree (A.S.) or an Associate in Applied Science degree (A.A.S.), as depicted in the chart, have been successful in securing employment in their chosen fields or continuing their education.

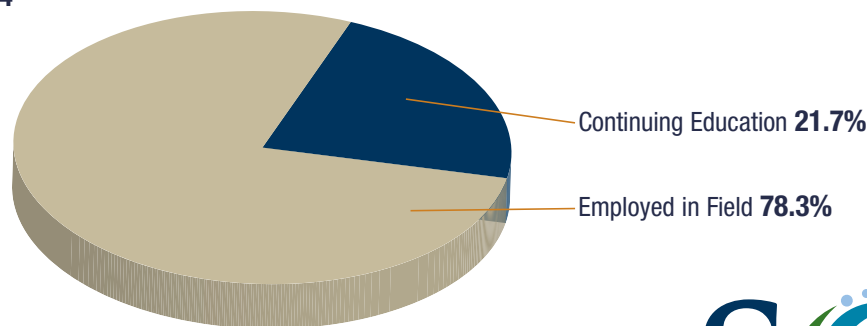

Placement data is gathered by the Florida Education and Training Placement Information Program (FETPIP) from various sources. FETPIP uses confidential follow-up data that describe the employment, military enlistment and continuing education experience of those individuals followed. The data are collected by using “record linkage” through the Florida Department of Education, the Agency for Workforce Innovation, U.S. Postal Service and the Department of Children and Families, just to list a few.

By linking common data elements in different databases, FETPIP has been successful in generating and providing useful follow-up data on former students about their continuing education and/or job placement in the state of Florida.

Program Name	Total Completers	In Pool	Positive Outcomes	Placement Rate %
Accounting - Postsecondary Vocational Certificate (PVC)	6	4	4	100%
Alternative Energy Systems (PVC)	6	4	4	100%
Biotechnology	3	2	2	100%
Business Administration	16	9	9	100%
Business Management (PVC)	3	0	0	0%
Child Development and Early Intervention (PVC)	4	3	3	100%
