Higher Ed
Proven Solutions. Global Expertise.
Introducing a broader suite of solutions, expertise, and support from the team that knows your challenges inside and out.

Get Expertise and Get Ahead
Discover how Blackboard partnered with The University of Southern Mississippi on an end-to-end strategic program enabling them to compete against virtual schools like never before.

Dr. Martha Saunders President, The University of Southern Mississippi

Discover Blackboard Learn™ Release 9.1
Smart, open, and designed for maximum achievement. Reach higher goals with greater Web 2.0 capabilities including social learning and instructional productivity tools — all on the most open Blackboard platform yet.

Mobile Learning is Today and the Future
Your students expect their grades, assignments and collaboration tools at their fingertips. They want campus services like directories, catalogs and news accessible on demand. With Blackboard Mobile, you can give them what they want now.

Alert and Notification

From education to government, the need for time-sensitive mass notification has never been greater. What’s needed is a platform that enables administrators to reach entire communities in minutes via multimodal communication that includes voice, e-mail and text messaging capabilities. It’s the best way to keep stakeholders informed, prepared and connected.

Blackboard connect
Reach your entire community with your most important information.

- Innovation Stories

When flooding threatened Fargo’s schools, the district used Blackboard Connect service to keep their community informed.
