Student Accomplishments and Kudos:

- The entire SCF Radiography Program class of 2015 has successfully completed the Registry Exam on the first attempt and are now Registered Radiologic Technologists. This has been a good year for the Radiography Program as this news follows on the other great news we had in January from our Accreditation Agency granting us full reaccreditation for eight years with no citations!

- This summer our nursing students posted a 96 percent pass rate on the National Council Licensure Exam, exceeding the state rate by 20 percentage points.

- SCF’s Dental Hygiene students posted 100 percent pass rates on their respective licensure exams.

- SCF recognized 18 students who completed the 2015 Summer Bridge Program at a special ceremony. The Summer Bridge Program assists recent high school graduates in getting a jump start on their college educations. Students received college scholarships covering tuition, books, school supplies and lunches, and complete up to six college credits by taking courses including student life skills, psychology and reading.

- More than half of the graduates in the Class of 2015 at the SCF Collegiate School earned Bright Futures scholarships to continue their educations. Scholarships were offered to 26 out of 50 graduates; 14 earned the Florida Academic Scholars (FAS) award, the highest level of achievement, and 12 earned the Florida Medallion Scholarship (FMS), the second-highest level.

Upcoming SCF Events:

- SCF Biotechnology Program will host an Open House 4-6 p.m. Wednesday, Aug. 26, at SCF Bradenton. Visitors will have an opportunity to tour the biotechnology laboratory, where SCF professors train students in advanced molecular biology techniques used in both research and industrial environments.
